Education

ESIC University - Bachelor's Degree in Business Administration and Management + minor in Data Science (Sep 2022 - May 2027)

- 9.63/10 GPA; Excellence Award; Honour Roll Award; 18 courses with highest distinction
- Finance grades: Financial Management II 10/10; Macroeconomics 10/10 (Honours); Corporate Mathematics 10/10 (Honours); Accounting II 9.2 (Honours); peer-tutored classmates
- Class delegate (2nd & 4th year); member of the degree curriculum committee

IMC Krems University of Applied Sciences (Austria) - Exchange Semester (Jan 2025 - Jun 2025)

- International coursework across degree programmes: International Financial Management, Principles of Business Data Analysis, Doing Business Abroad, Asia and Europe: Business Perspectives, Intercultural Competence

Colegio Nuestra Señora de Loreto - Spanish Baccalaureate in Sciences (2020 - 2022)

- 9.76/10 average; university entrance exam (EvAU) 12.63/14

Projects

One More Step - Strategic Business Plan for a D2C footwear brand, Final Degree Project (9.7/10) (2025 - 2026)

- Co-developed a go-to-market strategy for an unoccupied niche (half-size women's footwear)
- Co-designed two primary consumer surveys: 62.7% of women fall between sizes and 79% showed high purchase intention; validated a €70-85 price range through willingness-to-pay analysis
- Led the financial plan: built a 5-year Excel model (three-statement, break-even and ROE/ROIC analysis), sizing seed funding needs and structuring an investor round with a pre-money valuation

Machine Learning Project - Big Data Applications I, ESIC University

- Built a Python pipeline on a 1M-row dataset; trained a linear regression model (test R^2 of 0.88) and exposed it as a REST API

Relevant Experience

Management Solutions - Strategic Data Analyst Intern (Jul 2025 - Mar 2026)

- Worked in the Advanced Analytics team of this management consultancy, serving one of Spain's largest banks as our client
- Took full ownership of an end-to-end impact analysis of the client's predictive credit model, using an A/B test (pilot vs. control, thousands of customers) on millions of records with AWS, SQL and PySpark
- Identified a data error in the Risk team's process that invalidated past analyses and could have exposed the bank to client payment defaults; led the meeting with the Risk team to resolve it and align our technical processes
- Delivered a report used directly by the bank's digital sales team, with explicit client recognition
- Received a full-time return offer upon graduation

Additional Experience

ESIC University - Learning and Service Project (Team Lead) (Sep 2024 - May 2026)

- Led a multidisciplinary team creating videos to raise the visibility of a Madrid shelter
- Organised the team's tasks and coordinated with the ESIC tutor and the shelter's director
- Took part in other ESIC volunteering initiatives, such as collecting supplies for DANA flood victims in Valencia

Mendrugo - Event Organiser (Sep - Dec 2025)

- Co-led an after-work event from planning to execution, acting as main contact with Mendrugo's director
- Reached 96.3% attendance, 21.6% conversion and €1,350 revenue

Private tutoring - Teacher (Oct 2022 - Jun 2025)

- Tutored Accounting, Finance, Maths and Sciences, adapting to each student's learning style

Skills

Excel & Finance: Advanced Excel (Microsoft Office Expert certification); financial modelling
Data & Digital: Python, SQL, PySpark, R, Power BI, Tableau, AWS, Azure (AZ-900 & AI-900 certified), Git
AI & Automation: use Claude to automate multi-step analysis workflows (requirement extraction, evidence mapping, scoring); building my portfolio website with AI agents (Google Antigravity)
Languages: Spanish (Native), English (C2)
Interests: guitar and piano, watercolour and oil painting, creative writing, tennis, cycling
